

## PURPOSE PLAN.

The two most important days of your life are the day you were born, and the day you find out why.

Now that you've learned more about yourself, your journey and your problems, **it's time to learn about your passions.**

These questions are the ones that will take some serious time to ponder. Many people go their entire life without discussing these things with others or taking time to answer.

An Australian nurse, Bronnie Ware, recorded hundreds of dying patients in their old age over the course of several years for a book about death. The #1 regret of the dying was that **they wished they'd had the courage to live a life true to themselves**, not the life others expected of them.

**Our goal is to help 1 Million + people avoid this regret.**

### MY PURPOSE

1. What is true about yourself that would make your 7-14 year old self cry?
2. What gets you so excited that you forget to eat and poop?
3. How are you going to save the world?

## PURPOSE PLAN.

4. If you had to leave the house every day to go do SOMETHING, what would you do?
  
  
  
  
  
  
  
  
  
  
5. How well do you really know yourself?
  
  
  
  
  
  
  
  
  
  
6. If you were going to die one year from now, how would you want to be remembered?
